

## MAINSTREAM™ HD MEDIA PLAYER

### HIGH-DEFINITION PLAYBACK

Enjoy your favorite multimedia content at 1080p (Full HD) on your HDTV

### PLAYS ALL YOUR DIGITAL MEDIA

Supports a wide array of video, audio, and image formats for playback of your entire digital media library on your TV

### UNLIMITED CONTENT

Effortlessly browse through a limitless collection of online media

### THE TOTAL MEDIA EXPERIENCE

The D-Link DSM-332 MainStream™ HD Media Player is a streaming media player that connects to your TV to give you big-screen playback of digital media stored on your computer, your network, or a USB storage drive. It also connects to a variety of streaming media services to give you a wide variety of fresh content to choose from. With a user-friendly remote and interface, the MainStream™ makes it easy to enjoy the shows and music you love.

### GIVE YOUR MEDIA COLLECTION A NEW LIFE

The MainStream™ can play your digital media stored on a variety of sources. Play videos, music, and photos from a shared folder or drive on your network, or simply plug in a USB storage drive to view content stored on it. It also includes an SD card slot so you can insert your camera's SD card to immediately view a slideshow of your photos on your TV. With support for a wide variety of video and audio codecs, you can enjoy your entire digital media collection in your living room.

### UNLIMITED INTERNET CONTENT ON YOUR HDTV

You can watch the latest in entertainment with wide support for a variety of streaming media services. Use the remote control to browse through libraries of HD movies with Netflix™, or check out the latest videos uploaded to YouTube™. Check out photos stored on Flickr or Picasa, or listen to customized Internet radio with Pandora. With the D-Link MainStream™, you'll never run out of entertainment choices again.

### EASY TO SET UP AND EASIER TO USE

Instead of having the typical jumble of wire and cables to connect, the MainStream™ supports Wireless N connectivity along with HDMI, so setting up the media player is simple. Simply plug in the power adapter, then connect the Mainstream™ to your TV with a single HDMI cable and you're good to go. After a quick wireless network configuration, you can sit back with remote in hand and start watching movies from the Internet or from your digital media library.

### WHAT THIS PRODUCT DOES

The DSM-332 MainStream™ HD Media Player provides an easy way to bring multimedia to your television. Simply connect the media player to the Internet using a wireless or wired connection, connect the device to your television using an HDMI cable, and you are good to go. Using the included remote control, you can sit back and enjoy the wide variety of online content that the MainStream™ has to offer from the comfort of your couch.
